

Meet Your New Best Friend!

Pedro

Height: 14 hands

Age: 19

Gelding Mule

Pedro is an amazing mule; he's traffic safe, trail safe, rides out alone, rides in a group in any position, opens and closes gates, doesn't mind dogs around his feet, is easy to catch anywhere (even loose in the pasture), packs, high-lines, pickets, stands tied quietly, can be ridden in a hackamore, side-pull, snaffle, or curb bit, great for farrier and vet, loads in stock trailer with ease (needs coaxing in 2-horse straight but will do it), and is an EASY KEEPER (dry lot is best). He's steady as they come, but more whoa than go -- though you never need to nag him. He walks, trots, and canters on requested lead, and has good manners on the ground and in the saddle. He'll move cows, round up run-away-horses, or head out for a leisure trail ride. While he's not super handy or all that light he does move of your leg.

Once you've earned this guy's trust and respect he'll meet you at the gate and go over, under, through anything you ask.

References will be required of prospective buyers.
