CHR is dedicated to creating safe solutions for horses in Colorado and beyond. Horses come to CHR from a variety of vulnerable situations. While many of the horses we welcome come from responsible private owners needing to rehome them, we also serve horses coming to us from animal control seizures, dude ranch retirement, the local livestock auction, partner rescues, and more.

At CHR, quality over quantity is our approach. Our robust placement program ensures each horse finds a quality, loving match that's not dictated by a specific timeline. Whether in a short-term foster home or permanent adoptive family, we believe that all the horses in our care deserve to find a safe, sustainable solution that's right for them - however long it takes.

To further support horses across Colorado, CHR created HorseAlert, a free emergency response tool for the equine community during natural disasters. It connects people who need to evacuate horses with drivers who can help. And, to support horse owners affected by natural disasters, CHR offers the Leg Up Program. This program offers modest, short-term financial assistance to support day-to-day feeding, basic care, emergency veterinary care, gelding services, or euthanasia for your equine partner while you focus on getting back on your feet.

CEO Katherine Gregory is a seasoned executive with over 25 years of experience driving growth and innovation in organizations across industries. Her background in tech, consumer goods, and animal welfare has made a significant impact on the local equine community and beyond. As the CEO of Colorado Horse Rescue, Katherine has demonstrated remarkable leadership skills and a passion for animal welfare, including groundbreaking solutions, such as HorseAlert, a life-saving tool for equine evacuations. With an MBA from Northwestern University's Kellogg School of Management, Katherine brings a strategic mindset and a passion for results for horses, their humans, and their communities.
